iMovie 2 Solutions: Tips, Tricks, and Special Effects Erica Sadun

iMovie 2 is Apple's powerful but accessible digital video editing software. Because iMovie is fairly intuitive, it's less suited for a manual-style approach than a tips/tricks book. None exists right now, but our "iMovie 2 Solutions" will fill that gap, covering tips, tricks, and special effects in a premium package ideally suited for the discerning Mac audience. The topics covered include: title effects, credits, logos, overlays, vignetting, slide shows, cutaways, frame-by-frame editing, narration, sound effects, and a variety of special effects.
