The Kabala Of Numbers Sepharial

There is a system of interpretation in numerology which is supported by experience, but has its origin beyond the realm of the phenomenal worlds. If no such system existed, it would be impossible to prove the geometrical relations of thought. But this is done daily by those who make use of numbers for purposes of divination.-from "Chapter II: Geometrical Relations of Thought"Originally published in two volumes in 1913, this classic of the art of numerology builds upon the work of the ancient Greeks, Aryans, and Egyptians to describe the dramatic effect that numbers exert upon the world all around us. Part I introduces numerological theories and practices, including how to read others' thoughts through numbers, predict and influence success and failure, and understand "chance" events. Part II explores the geometry of nature and how it affects us, numbers that sway human will, and much more.For practitioners of the paranormal arts and those interested in the history of science and pseudoscience, this is a fascinating and essential book.

From reader reviews:

Jose Longoria:

Playing with family in a park, coming to see the ocean world or hanging out with close friends is thing that usually you may have done when you have spare time, in that case why you don't try matter that really opposite from that. A single activity that make you not sense tired but still relaxing, trilling like on roller coaster you have been ride on and with addition details. Even you love The Kabala Of Numbers, it is possible to enjoy both. It is excellent combination right, you still want to miss it? What kind of hang-out type is it? Oh can happen its mind hangout men. What? Still don't understand it, oh come on its identified as reading friends.

Gloria Duncan:

Many people spending their period by playing outside using friends, fun activity together with family or just watching TV all day long. You can have new activity to pay your whole day by looking at a book. Ugh, ya think reading a book can actually hard because you have to accept the book everywhere? It ok you can have the e-book, bringing everywhere you want in your Smartphone. Like The Kabala Of Numbers which is keeping the e-book version. So , try out this book? Let's notice.

Olga Snider:

E-book is one of source of information. We can add our knowledge from it. Not only for students but native or citizen require book to know the update information of year to be able to year. As we know those guides have many advantages. Beside we all add our knowledge, can bring us to around the world. Through the book The Kabala Of Numbers we can take more advantage. Don't one to be creative people? To get creative person must choose to read a book. Simply choose the best book that ideal with your aim. Don't always be doubt to change your life at this time book The Kabala Of Numbers. You can more attractive than now.

Isaiah Owens:

Reading a e-book make you to get more knowledge from the jawhorse. You can take knowledge and information coming from a book. Book is created or printed or descriptive from each source this filled update of news. On this modern era like now, many ways to get information are available for a person. From media social including newspaper, magazines, science reserve, encyclopedia, reference book, novel and comic. You can add your understanding by that book. Ready to spend your spare time to open your book? Or just trying to find the The Kabala Of Numbers when you desired it?
