Dimensions of Learning: Teacher's Manual 2nd (second) Edition by Robert J. Marzano, Debra J. Pickering [1997]

When the first edition of the Dimensions of Learning Teacher's Manual was published in 1991, the authors, led by Dr. Robert Marzano of the Midcontinent Regional Educational Laboratory (McREL), hoped that it would provide a tool that educators could use as they pursued restructuring and reform efforts in their schools and districts. Specifically, the Dimensions of Learning model was offered as a tool to help educators focus their efforts more on student learning than on the implementation of specific programs and strategies. Since 1991, Dimensions has been used by teachers and administrators in this way. The model has helped them to maintain this focus on learning both as they plan curriculum, instruction, and assessment and as they evaluate the impact of their efforts on student learning.
