Doctor Death: A Madeleine Karno Mystery Lene Kaaberbol

The critically acclaimed *New York Times* bestselling coauthor of *The Boy in the Suitcase* draws you into a “gripping” (*Publishers Weekly*, starred review) mystery from the very first line of this page-turning historical thriller featuring an ambitious young female detective challenging the mores of nineteenth century France.

Strong-minded and ambitious, Madeleine Karno is eager to shatter the constraints of her provincial French upbringing. She longs to become a pathologist like her father, whom she assists, but this is 1894. Autopsies are considered unseemly and ungodly, even when performed by a man.

So it’s no surprise that when seventeen-year-old Cecile Montaine is found dead in the snowy streets of Varbourg, her family will not permit a full postmortem autopsy, and Madeleine and her father are left with a single mysterious clue. Soon after, the priest who held vigil by the dead girl’s corpse is brutally murdered. The thread that connects these two events is a tangled one, and as the death toll mounts, Madeleine must seek knowledge in odd places: behind convent walls, in secret diaries, and in the yellow stare of an aging wolf.

Eloquently written and with powerful insight into human and animal nature, *Doctor Death* is at once a captivating mystery and a poignant coming-of-age story.
