## **Madness and Enlightenment: The title of a book that was never written...** Liviu Plesoianu

He who ways that the first step is the most difficult one does nothing else but restate a cliché. The truth contained in this assertion is increasingly fading as you sink into yourself. When dealing with the search of the Self, the last step is infinitely more important. I don't think anyone can imagine – anyone who has not lived this experience – how difficult to bear is the suffering of knowing yourself a single millimetre apart from the Self, without having touched it yet. An infinite longing eating on you, the infinite longing for infinity. Yet still more terrible is the complete impossibility of being yourself. It takes a single eternity-robbed second, it is enough for you to taste a teaspoon of infinity. You will be mad-like afterwards. Schizophrenic, for you will know so well that it's not you the one who's walking, who's smiling, who's talking, who's keeping silent... being one step away from the Self and yet outside of it! – It's really terrible. There's absolutely nothing to satisfy you. You feel dry, empty... It is the void still waiting for its contents, it is the emptiness screaming for infinity.

...This is exactly why this book was born - to let all travelers know that if, during their Inner-Quest, they are not experiencing only bliss and divine joy (as 99% of the "self-empowerment" books assert), that's because the real Journey encompasses all - divine bliss and divine sorrow, divine joy and divine sadness, divine ecstasy and divine agony. This book is the personal log of a mad traveler. So I strongly advice you to quit reading it if you are searching for just another book telling you that the road to the Nowhere Place is made only of golden moments. On the contrary, I think that it's more likely you will reach your destination if you know that there will be moments when you will feel like hitting your head against the wall.

...What else could I say!? None of the letters I've paid tribute to paper is less than "I" and "non-I", my happiness, my toil, birth and death, Genesis and Void. I wrote, allowing myself to be torched by the all-consuming risings of an arsonist Sun, I wrote in the healing shadows of orange dawns, I wrote out of the spaceless space of non-being, I wrote out of the living green of being, I wrote in and out of myself. ...I wrote words and non-words... And then I've asked them to accept a common title – “I'm running, unwillingly, backwards...”.

But both words and non-words wanted the title of this book to be different: “Madness and Enlightenment”. And this book, bringing together seeds of experience spread over ten years, is my dedication to all those seeking water, while thirsty, in the desert. ... To all those journeying towards... - A wonderful journey, but extremely difficult and without many beacons.

The Road to the Nowhere Place is a road of agony and ecstasy, a road which is wonderfully difficult to step on. Especially when you cannot fully line up to any system.

In this book, you shall find, from one end to the other, flashings of the worlds beyond the world. Try to read every flashing beyond grammar, beyond words, to the un-words... Try to read each flashing beyond any prejudice...

There are hidden and divine worlds inside of us and within the seemingly commonplace everyday life we live in. We are so close... Every moment...

I invite you to come with me, beyond the beyond, to the Nowhere Place...
