BASIC SPANISH FOR MEDICAL PERSONNEL is a communication manual designed to serve those in the medical professions who seek basic conversational skills in Spanish. Written for use in two-semester or three-quarter courses, it presents everyday situations that medical students, pre-professionals, and professionals may encounter at work settings such as hospitals, emergency rooms, doctors' offices, and clinics when dealing with Spanish-speaking patients and personnel in the United States. BASIC SPANISH FOR MEDICAL PERSONNEL introduces essential medical vocabulary, practical reference information, and medical notes written from a cross-cultural perspective. It provides students with opportunities to apply, in a wide variety of practical contexts, the grammatical structures presented in the corresponding lessons of the Basic Spanish core text.
