Philosophical Revelations

Jerome Weintraub

Philosophical Revelations Jerome Weintraub

For over 2,000 years, thousands of philosophers, scientists, and other thinkers, have shared their conclusions with us. Many of them proved to be false or of no practical use. Many people are skeptical regarding the value of any of the conclusions of these people.. But many of them have passed down results that affect today's society. Jerome Weintraub, who possesses two philosophy degrees, has investigated these results, and produced a work, *Philosophical Revelations*, in which he reveals the works of 276 individuals that are of value today. For example. President Clinton defending himself against a threatened impeachment, said "It depends on the definition of the word 'is'" But Ludwig Wittgenstein (in *Philosophical Investigations* Sect. 561), said that "the word 'is' is used with two different meanings (as the copula and as the sign of equality)" but that its meaning is not its use. That is to say, "is" has not one complex use (including both "Water is clear" and "Water is H₂O") and therefore one complex meaning but two quite distinct uses and meanings. It is an accident that the same word has these two uses. Philosophy students and researchers will find this book of value in their philosophical investigations.
