Astrology and Childhood: A Parenting Guide (Alternatives Series: Life Options for Today)

Peter West

Astrology and Childhood: A Parenting Guide (Alternatives Series: Life Options for Today) Peter West
Astrology has been used for advice and inspiration for many aspects of daily life, by those who have a devout belief in its values and others who view it as an additional source of guidance. Parenting may be the most taxing work we ever undertake, and there are few who would not accept extra help in coping with its challenges. Astrology can play a part. The influence of an astrological sign is there from birth; it does not increase with maturity, so a parent can see what to expect in an Aries baby, be shown the probable character traits in their Gemini child, or assisted in teaching a Piscean. This may not be a traditional parenting guide, but it is a valid alternative that will serve a great purpose for mothers and fathers around the world.
