Corporations and Criminal Responsibility (Oxford Monographs on Criminal Law and Justice) Celia Wells

Gathering ideas from a wide range of literature, this book argues that there is no magic answer to corporate power, to issues of personal safety, and their inter-relationship with criminal law and justice. This edition has been revised and updated, taking account of the burgeoning scholarly literature. Yet, it remains distinctive in combining legal analysis and discussion of law reform debates with a theoretical account of the relationship between legal institutions and the role of risk and blame in shaping criminal law and the practices of the criminal justice system.
