There are many couples all over the world who have broken up with their partners for some very simple misunderstandings. It's sad to think that many of these break-ups could have been completely avoided if each person had a clearer understanding of what their partner was thinking and what they wanted from the relationship. Unfortunately, because men and women are biologically different, there are specific things we do that can easily drive a partner away rather than keeping them close as we had wanted. You might wonder why your relationship has ended at all. But the reality is that even good relationships do break up. If men and women had a little more awareness of how the opposite sex was thinking, then breakups would never happen. In fact, you could have turned your relationship with your ex-lover into a life-long happy partnership where neither of you would ever consider looking for another relationship.
