Deposit Insurance around the World: Issues of Design and Implementation

Deposit Insurance around the World: Issues of Design and Implementation

Explicit deposit insurance (DI) is widely held to be a crucial element of modern financial safety nets. For this reason, establishing a DI system is frequently recommended by outside experts to countries undergoing reform. Predictably, DI systems have proliferated in the developing world. The number of countries offering explicit deposit guarantees rose from twenty in 1980 to eighty-seven by the end of 2003. This book challenges the wisdom of encouraging countries to adopt DI without first repairing observable weaknesses in their institutional environment. The evidence and analysis presented confirm that many countries would do well to delay the installation of a DI system. Analysis shows that many existing DI systems are not adequately designed to control possible DI-induced risk taking by financial institutions, and the book provides advice on principles of good design for those countries in the process of adopting or reforming their DI systems. Empirical evidence on the efficiency of real-world DI systems has been scarce, and analysis has focused on the experience of developed countries. The contributors to this book draw on an original cross-country dataset on DI systems and design features to examine the impact of DI on banking behavior and assess the policy complications that emerge in developing countries. Chapters covers decisions about DI adoption, design, and pricing, and review individual country experiences with DI--including issues raised by the EU's DI directive, banking reform in Russia, and policy efforts to protect depositors in China. Recent bank runs on loss-making banks in Germany and the U.K. have pushed the issues of DI systems back to the center of debates on regulatory policy in both developing and industrialized countries. The guiding principles identified in this book can contribute powerfully to that debate. Contributors Thorsten Beck, Modibo K. Camara, Asli Demirgüç-Kunt, Kalina Dimitrova, Stephen Haber, Patrick Honohan, Harry Huizinga, Edward Kane, Baybars Karacaovali, Randall Kroszner, Luc Laeven, William Melick, Fernando Montes-Negret, Nikolay Nenovsky

If you try to find new book you just read, this book very appropriate to you. The book Deposit Insurance around the World: Issues of Design and Implementation is much recommended to you to learn. You can also get the e-book from your official web site, so you can more easily to read the book.

Michael Anderson:

As a scholar exactly feel bored to reading. If their teacher questioned them to go to the library as well as to make summary for some reserve, they are complained. Just small students that has reading's spirit or real their passion. They just do what the instructor want, like asked to go to the library. They go to there but nothing reading critically. Any students feel that studying is not important, boring and can't see colorful photographs on there. Yeah, it is for being complicated. Book is very important for you. As we know that on this time, many ways to get whatever we would like. Likewise word says, many ways to reach Chinese's country. Therefore , this Deposit Insurance around the World: Issues of Design and Implementation can make you experience more interested to read.
