Picking winners in the stock market is the ultimate challenge for investors. Finding the next Apple, Coca-Cola, or Microsoft is a great prospect as having a share of the success of the most lucrative businesses is alluring for everyone.

What are the steps that can help You get there?

Use your common sense!

- What is the secret behind the best companies?
- How to spot the winners of the future? What makes them different?
- What makes some businesses successful and others a failure?

These questions are certainly among the most popular ones among investors everywhere on the world. The answer is simpler than most would think.

It is selling high-quality products that are consistently better than the competition. It's is just common sense.

The different industries require different business models, structure, marketing and so on, but at the core, success is always based on this.

Develop a mindset instead of searching for the Holy Grail!

A lot of times, investors get lost in the jungle of fancy indicators and Cash-Flow models that try to predict the future of businesses, which is by definition not possible. But buying companies that are likely to handle anything you throw at them is not just possible—it is within every investor's reach!

This book gives you the framework to do just that. It doesn't tell you one secret formula that identifies winners; rather it provides the tools and the mindset that will give YOU the ability to find the investments for YOUR portfolio.

Focus on the essence!

This book sums up the wisdom of the greatest investors of all time and provides the most important points to focus on. The traits that define the winners are there to observe for everyone; your success will depend on what you are looking for!

You will find a simple guide to

- What is the secret behind the best companies?
- How to spot the winners of the future? What makes them different?
- What makes some businesses successful and others a failure?
- Find the businesses with great potential
- Interpret financial statements
- Spot red flags that should make you pass on a company
- Value stocks and markets and time your purchases accordingly

Never cease to learn!

Investing is a process of learning. You will always have new ideas and draw new conclusions from your experience. If you have a solid base, and after you read this book you will have one, you will be the master of yourself will be able to improve constantly and reach your goals in the meantime!
