Routledge Handbook of Chinese Security

Routledge Handbook of Chinese Security

Located in the center of Asia with one of the largest land frontiers in the world and 14 neighbors whose dispositions could not easily be predicted, China has long been obsessed with security. In this Handbook, an internationally renowned team of contributors provide a comprehensive and systematic analysis of contemporary thinking about Chinese national security. Chapters cover the PRC's historical, ideological and doctrinal heritage related to security, its security arrangements and policies targeting key regions and nations of the world, the security aspects of the PRC's ground, air, sea, space and cyber forces, as well as the changing and expanding definition and scope of China's security theory and practice.

The Handbook is divided into three thematic parts:

Part I focuses on national security, covering traditional views of security and the impact of China's historical experience on current security dispositions as well as non-traditional security.

Part II looks at China's relations with the great powers, regional security and China's involvement with collective security organizations.

Part III provides an overview of China's institutionalized security forces; looking at the army, navy, air force and Second Artillery (strategic nuclear forces) and offering analysis of China's recent interest in space as a security concern and cybersecurity.

This volume is essential reading for all students of Asian Security, Chinese Politics and International Relations.

Erin Cummins:

The book Routledge Handbook of Chinese Security will bring that you the new experience of reading any book. The author style to clarify the idea is very unique. Should you try to find new book to study, this book very suitable to you. The book Routledge Handbook of Chinese Security is much recommended to you you just read. You can also get the e-book from official web site, so you can quickly to read the book.

Harry Cofield:

Is it you who having spare time after that spend it whole day by simply watching television programs or just telling lies on the bed? Do you need something new? This Routledge Handbook of Chinese Security can be the response, oh how comes? A book you know. You are consequently out of date, spending your time by reading in this completely new era is common not a nerd activity. So what these textbooks have than the others?

Orville Hightower:

As a pupil exactly feel bored to help reading. If their teacher expected them to go to the library or to make summary for some publication, they are complained. Just tiny students that has reading's soul or real their pastime. They just do what the professor want, like asked to go to the library. They go to at this time there but nothing reading significantly. Any students feel that studying is not important, boring and can't see colorful photos on there. Yeah, it is to get complicated. Book is very important for you. As we know that on this time, many ways to get whatever you want. Likewise word says, ways to reach Chinese's country. Therefore , this Routledge Handbook of Chinese Security can make you experience more interested to read.
