Dennis P Curtin

A Short Course in Canon EOS Digital Rebel XTi/400D Photography book/ebook Dennis P Curtin

This book/eBook package is your guide to getting more interesting and creative photos with the 10.1 megapixel Canon EOS Digital Rebel XTi digital SLR (called the 400D in many countries). (The book also has links to 50 or so animations BUT you need broadband Internet access to play them. They will not play over a dial-up connection.) If you want to learn more about the concepts of photography, this book/ebook is for you. It discusses every camera setting on this professional-quality camera in a clear, well-illustrated style, but it also does much more. You'll see why and when you use specific settings, not just how to set them. You'll find that this guide helps you quickly master your camera so you'll be getting the kinds of photos you hope for. The book is printed in black & white and has a well-liked spiral binding that lets the book lie flat or be folded back. The accompanying eBook on a CD disc is a printable and searchable full-color version of the same book in Adobe's popular PDF format. It can be read on a PC or Mac using the free Acrobat Reader or any current Web browser. Just some of the things you'll learn are how to take pictures in fully automatic point and shoot mode and how your camera captures digital images; how to play back and manage your images; use buttons, dials, and menus; control image size and quality; shoot continuously, use all of the camera's exposure modes and exposure controls to get photos that show the scene exactly as it is, or as you want to interpret it; using histograms and the RAW format for the highest possible quality; how to control sharpness in your photographs; and how to use focus, depth-of-field, sharpness, softness, and blur creatively. Learn all about light and color and how to use them creatively. Understand how they change throughout the day and seasons, how they're affected by the weather, and how light's direction and quality affects highlights and shadows. See how to set white balance to capture colors the way you see
