Have you just been dumped by a man? Does your sister insist on dating losers? Has your best friend just been cheated on by her husband? All of you need to read this book! In this entertaining yet cathartic look at the male/female dynamic, you'll find out why you got dumped (it has nothing to do with you!), how to avoid looking like an idiot if you did, and how to avoid having it happen again. No more candy-coated, Zen-like explanations as to why your relationship bombed. Jade goes straight to the source of the problem---men. They take the heat for everything and it isn't pretty, but hopefully it'll make every woman who's been ruthlessly dumped feel a whole lot better. Contained within these pages are words of wisdom, real-life anecdotes, finger-pointing and, most importantly, complete exoneration that your current predicament is in any way your fault. And hopefully you'll find solace in the fact that you're not alone. These chapters are chock-full of Jade's personal experiences, the experiences of other every-day women, as well as those of celebrities, who also couldn't escape The Big Puntaroo, but whose stories of survival will hopefully be inspirational. Not to mention, kind of amusing. In addition to these anecdotes, Jade analyzes the grieving process in an attempt to save you from making a complete a** out of yourself, if it's not too late. She then switches to some scientific essays which prove men are to blame for everything, and then explores reasons why women insist on dating or marrying losers. After that, she provides some tips to help you deal with being dumped, and finally explores some ways to avoid such train-wrecks in the future. This book is for every woman out there who's been cheated on and or dumped by a man. But it's also for women who want to know why they keep pair-bonding with losers. In fact, this book is for every woman who has men in her life and wants to know why it's so damn hard to get along with them.
