As the brains and driving force behind Facebook Mark Zuckerberg has become the youngest billionaire in the history of the planet. As this comic reveals, the road for the success for both his creation and him personally was not preordained nor was it always a smooth ride. He would be tempted with unimaginable amounts of money and have to deal harshly with people along the way - many of whom would later feel betrayed. Read how a young man's frustration with women helped spark an idea that would have him dating Victoria's secret models and how socially inept young man wound up creating a company that has revolutionized the way hundreds of millions of people all over the globe socialize with each other.
