If you're in a relationship with someone, it's important to keep in mind that you shouldn't be lazy in your relationship. What this means is that you have to always be adventurous, especially when it comes to having consensual sex.

How could you be adventurous then? Well, by trying BDSM, of course!

You see, BDSM is not a way to punish—but rather to involve, and to experience something that can bring you two together. BDSM can turn you into a master and a slave; a teacher and a student; a boss and his secretary—and so much more! It's like entering a different world where you can explore your sexuality even more, and be stronger as a couple. By banning inhibitions and playing different roles, a couple gets to be more in tune with each other, and gets to understand what makes each partner tick. These BDSM scenarios also allow couples to develop a better sense of trust for each other.

With the help of this book, you'll learn about 39 different BDSM roles that you can play—some for beginners, some for experienced ones, and some for experts. Risk level is also given so you'll know exactly what to expect. Generally, men act as dominants—but take note that you can always reverse roles—do what you want to.
